

INDICAÇÃO Nº 0208

AUTORA / SIGNATÁRIA

Vereadora

SAMANTHA CAVALCA
Progressistas (PP)

DESTINATÁRIO (S):

Exmo. **SILVIO MENDES**
Prefeito

Sra. **LEOPOLDINA CIPRIANO FEITOSA**
Fundação Municipal de Saúde (FMS)

Senhor Presidente,

Indico ao Exmo. Senhor Prefeito de Teresina, sucessivo à apreciação do plenário desta Câmara, solicitação para que seja encaminhada a **Fundação Municipal de Saúde (FMS)**, na pessoa da Ilustríssima Presidente Leopoldina Cipriano Feitosa, a solicitação de materiais básicos para as UBS dos bairros, Cristo Rei, Vila da Paz e Três Andares.

JUSTIFICATIVA

O presente Indicativo visa atender à demanda dos moradores e frequentadores da região, pelo fato de que as Unidades Básicas de Saúde (UBS) dos bairros Cristos Rei, Vila da Paz e Três Andares estão enfrentando a falta crônica de materiais básicos essenciais (como luvas, bisturi, seringas e insumo de curativos). A escassez destes itens, constantemente relatada pelos pacientes, tem precarizado o atendimento, dificultando a realização de procedimentos simples. Portando, solicitamos que sejam tomadas as devidas providências.

Teresina, 01 de dezembro de 2025.

1. The first step in the process of identifying a problem is to recognize that a problem exists. This is often done by comparing current performance with a desired state or goal. Once a problem is identified, the next step is to define the problem more precisely. This involves determining the scope of the problem, the resources available, and the constraints that may be present. The third step is to analyze the problem. This involves identifying the causes of the problem and the relationships between different variables. The fourth step is to develop a solution. This involves brainstorming possible solutions, evaluating their feasibility, and selecting the best one. The final step is to implement the solution and monitor its effectiveness. This involves putting the solution into practice, tracking progress, and making adjustments as needed.

Post-Operative Management

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.
